

User manual:

The game is started:

you can move by clicking the mouse on the piece you want to move when it is your turn.

Once you click on the piece the legal moves will be shown on each square u can move to.

If you click on an illegal move nothing happens and it will still be your turn to select the piece.

If you click on a legal move from the shown moves, the piece moves there and the turn changes to the other colour for the other player to make his move.

the legal moves are the moves according to the rules of chess.
